PERSONAL PROJECTS

Gemini Redesign

Design

Reimagined Gemini for Android: A translucent interface with Glass-morphism elevates the visual experience, while thoughtful UX improvements make interaction effortless.

Oota

Design & Development

Delicious, Healthy Lunch Delivered Fast. No time to spare? OOTA delivers fresh, never-frozen meals packed with flavor and nutrients, perfect for busy software employees who need a quick and convenient way to fuel their day.

Claud

Design & Development

Get your weather forecast in clear, concise steps with our adorable web app. Used Java, Springboot, Thymeleaf, html and css.

Crystal frames

Design & Development

Crafted a stunning photo portfolio website for my friend, featuring seamless parallax effects and cutting-edge animations built with advanced HTML, JS, and CSS.

Hora

Design & Development

Say goodbye to Big O guesswork! My calculator reveals the time complexity of your code across multiple languages.
